Lucknow, Uttar Pradesh, India 

Education

- Institute of Engineering and Technology, Lucknow** **2023 – 2027**
B.Tech. in Electronics and Communication Engineering **Y.G.P.A: 8.3 / 10**

Technical Skills

Languages: JavaScript, TypeScript, Python, C++, Java, HTML/CSS

Frameworks & Libraries: Next.js (App Router), React.js, Node.js, Express.js, TailwindCSS

Databases & BaaS: Supabase, MongoDB, Vercel Postgres

Tools & Concepts: Git, GitHub, REST APIs, SaaS Architecture, JWT Auth, Vercel

Experience

- Frontend Developer** **Jun 2024 – Jul 2024**
ENCORE'25 Fest Team, IET Lucknow
 - Developed the official website for ENCORE'25, the annual cultural and technical fest of IET Lucknow.
 - Focused on creating a responsive, visually appealing design with smooth animations using React.js, Framer Motion, and TailwindCSS to enhance user engagement.

Projects

- MenuLuxe - Digital QR Menu SaaS** [Live Demo](#)
A full-stack application for restaurant owners to create and manage digital menus via QR codes.
 - Developed a secure, multi-tenant dashboard for owners to dynamically manage food items, categories, and pricing in real-time.
 - Engineered a QR code generation feature, allowing owners to print and display unique codes that link customers directly to their live, responsive digital menu.
 - **Tech Stack:** Next.js, TypeScript, TailwindCSS, Supabase.
- Branqly - Branded URL Shortener SaaS** [Live Demo](#)
A production-ready, scalable URL shortener with support for custom domains and advanced analytics.
 - Implemented key SaaS features including custom domain mapping with DNS-based CNAME verification and integrated Razorpay subscriptions for monthly plans.
 - Provided an advanced analytics dashboard to track link performance, including IP, region, device, and city-level tracking with CSV export functionality.
 - **Tech Stack:** Next.js, TypeScript, MongoDB, Vercel Postgres, Razorpay API.
- Sayvia - AI-Powered Anonymous Messaging App** [Live Demo](#)
An anonymous inbox application that allows users to receive messages and generate AI-powered reply suggestions.
 - Built a secure and anonymous messaging system where users can share a unique link to receive messages from anyone without revealing their identity.
 - Integrated an AI model to provide intelligent, context-aware reply suggestions to incoming messages, enhancing user engagement.
 - **Tech Stack:** Next.js, MongoDB, TypeScript, AI SDK.

Achievements

- Solved over 300+ Data Structures and Algorithms problems on platforms like LeetCode and CodeChef.
